

FLI Family Connections Chair:

FLI Family Connections is a community of parents, guardians, and support persons whose Stanford students are First-Generation and/or Low-Income. We provide forums for FLI families to meet one another online, ask and answer questions, and enjoy being part of the Stanford family.

The FLI Family Connections Chair welcomes families who opt-in to this program, provides information about ways to connect with each other and get involved, and helps moderate conversations. As requested, FLI Family Connections leaders may also welcome families in person at on-campus family events when possible.

This is a pilot program, so the FLI Family Connections Chair will help develop this program and explore Zoom and SPC Slack as potential online platforms to crowd-source information and build community. The club's VP of Student Support oversees this program and will assist and help trouble-shoot along the way as needed.
