

Mind Over Money Liaison

Stanford's Mind Over Money program teaches students about personal financial management and financial wellness, equipping them to make informed financial decisions during their time at Stanford and beyond. The Parents' Club Mind over Money Liaison supports the program and helps spread the word about their offerings to our community of parents/guardians. The Liaison works with the club President to promote Mind over Money programs to our global members via the club's online meetings, e-newsletter, Facebook, and/or SPC Slack.
