

Textbook & Tools Chair:

The Parents' Club collects textbooks and classroom supplies for FLibrary, a lending library located in the First-Generation and/or Low-Income (FLI) Office. We work with the FLI Office to determine which items are most needed and then we strive to collect those items in June as students move out of their dorms for the year.

This effort saves valuable textbooks, iClickers, printers, and other classroom tools from being needlessly discarded. Accordingly, we partner with Stanford's sustainability teams in this effort.

The VP of Student Support oversees this program and will assist and help trouble-shoot along the way as needed. The Textbook & Tools Chair will also work closely with the Freecycling Chair: in a parallel effort, the FREEcycling Chair collects dorm essentials during dorm move-out to distribute to freshmen with highest need in the fall.

Timeline: Begin planning in March for collection in early June.
